

# Now simply CLICK for analog

The best little PLC keeps getting better

Shown at actual size

**NOW SUPPORTS 8 Analog I/O Modules**

Current Pressure Level Temperature Variable Speed Control Flow Control

**NEW!**

**\$29.00**  
(CO-00AC)

**\$69.00**  
(CO-00DD1-D)

**\$89.00**  
(CO-04AD-1)

**\$149.00**  
(CO-04THM)

**\$119.00**  
(CO-04DA-1)

## Connect to lots of process devices with analog I/O modules for the CLICK PLC

The CLICK PLC now has more ways to help you with simple control applications. Monitor pressure, level, current, even thermocouples and RTDs directly. Perform simple variable control\* with analog outputs connected to devices such as drives. These high-resolution modules offer fast setup (no DIP switches) with software scaling to make your life (and program) easier. Choose from:

- 4-channel, current or voltage in (13-bit) **\$89 each**
- 4-channel, thermocouple or RTD in (16-bit) **\$149 each**
- 4-channel, current or voltage out (12-bit) **\$119 each**
- Combo 4-channel in / 2-channel out, current or voltage **\$149 each**

\* no PID

**Also Available...** stand-alone combination CPUs with 2 analog inputs, 2 analog outputs, 4 discrete inputs and 4 discrete outputs built in (starting at **\$129.00**)

## Mighty as a stand-alone unit, or expand to 142 total I/O

With CLICK PLCs, you get a lot of application control in a small package. You can replace even just a few relays cost-effectively, but do a whole lot more with the easy-to-understand instruction set.

An 8-input / 6-output base unit with built-in serial ports can stand alone (starting at just \$69), or add any combination of up to 8 discrete and analog I/O modules. Simple!

And with FREE programming software, we've made it even easier to give CLICK a try.

Download the free software so you can see just how simple control can be.
