

# Enclosure Accessories - Electrical Interlocks, Defeaters and Grounding Kit

## Electrical interlock

The WAEK115 is designed to be used with standard Wiegmann door latching mechanisms. When turned on, this interlock will prevent the door handle from being turned. This interlock is designed to fit handles in the following enclosures:

- All two-door NEMA 12 enclosures
- Freestanding NEMA 12 enclosures
- All consoles
- All single-door NEMA 12 enclosures which have three-point handle mechanisms
- Multi-door NEMA 12 enclosures

The WAEK115NDH is designed to be used with standard Wiegmann enclosures that have no handles. This interlock requires drilling several holes in the cover and the body for mounting.

WAEK115	<--->	Electrical Interlock	120/60
WAEK115NDH	<--->	Electrical Interlock	120/60

## Interlock defater

This defater is key-operated and enables personnel to enter an enclosure while the enclosure's internal components are energized. Turning the key disengages the circuit to the electrical interlock.
