

# Wiring Solutions Overview

## Braided Sleeving

This lightweight polyester sleeving has an open weave to allow a maximum range of diameter expansion

AutomationDirect offers **rigid wiring duct** in a **variety of sizes** and styles for all your panel wiring needs. The T1 (standard) and T1E (thin finger) series gray or white open-slot rigid duct is made of PVC and carries a UL 94V-0 flammability rating. Duct is sold in 2 meter lengths, complete with covers, in convenient multi-piece packages or by the piece.

**DINOSAUR flexible wiring duct is self-adhesive**, and can be bent and twisted without breaking. Wiring duct accessories include spiral wrap, braided sleeving, replacement rigid duct covers, and mounting and labeling accessories.

## Spiral Wrap

Neatly group wire bundles simply and economically

**I-Flex leak-proof, flexible, electrical conduit tubing** can be used in extremely tight quarters, thanks to its flexibility. It is just right for basic applications where fast installation and maximum flexibility are a must, and is the solution in areas where movement, vibration, or flexing can be a problem. This tubing provides excellent tensile strength and the smooth interior wall protects wiring. All models are available in light gray or black.
